DO YOU USE FOURTH
SHIFT WORKPLACE?

HAVE YOU USED
CONNECTIVITY TOOLKIT?

Workplace Overview

- Fourth Shift Workplace provides an alternative method for users to access and use the Fourth Shift system
- Fourth Shift Workplace takes advantage of Internet web browsers providing a flexible and powerful tool for users that can result in increased productivity

Workplace Concepts

Web Based

Fourth Shift Workplace is a web-based client for the Fourth Shift Application.

Portals

With Fourth Shift Workplace portals can present multiple related screens linked via publish / subscribe.

Customizable

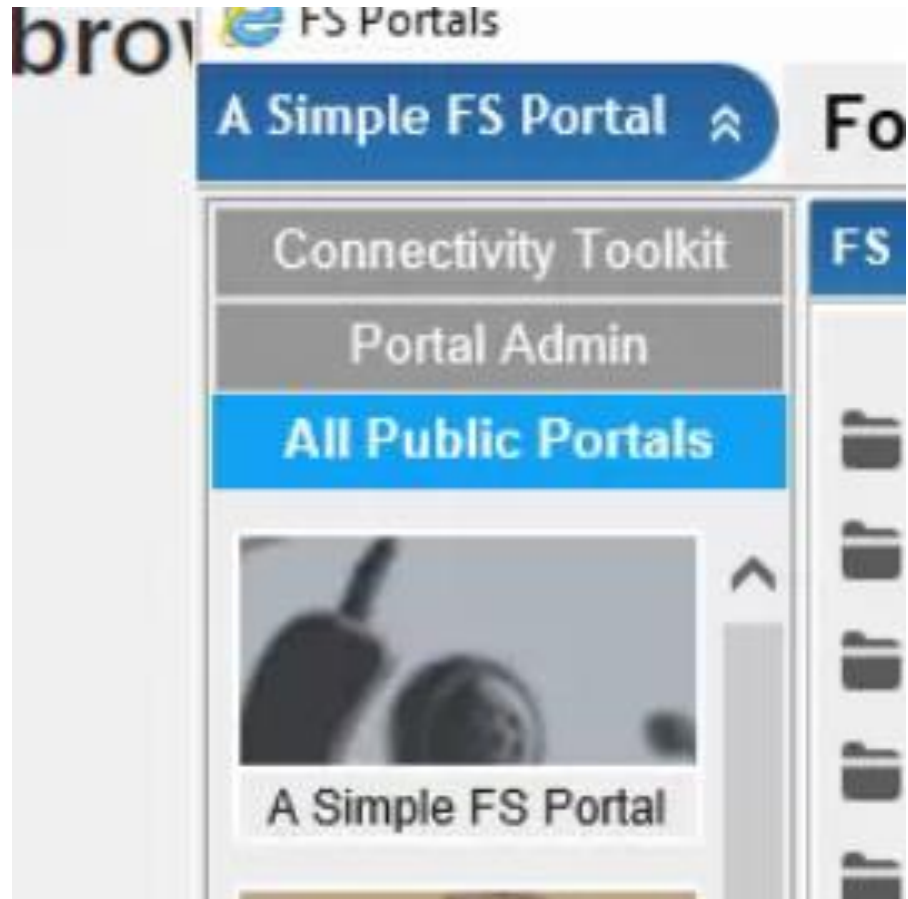

With Fourth Shift Workplace, you can hide fields, lock down fields to specific information, add buttons, add tabs with links to other screens or applications, and much more.

Field Security

Unlike the Fourth Shift GUI (fat) client, which uses screen level security, Fourth Shift Workplace can use field level security.

Portals

Public

- Public portals can be accessed by all users.

Private

- Private Portals can only be accessed by the user that created them.

Frames

- Frames are individual screens displayed through a portal.
- On any given Portal you can have 1 or up to 25 frames.

Connectivity Toolkit

Connectivity Toolkit

- Export UI Editor Tasks
- UI Editor
- UI Editor and WebUI
- UI Editor, WebUI and XSL Gen

UI Editor

Welcome to the
UI Editor
